

Special Interest Seminar Proposal(s)

Please provide one or more proposals of one hour seminars that would be of interest to teachers of English. It could be a special interest you have in educational theory, practice, technique, or research.

The topics submitted will be reviewed and selections will be made to provide a balance of educational topics. We strongly recommend that presenters provide time for feedback and questions within the hour.

We generally give the teachers of English a choice of seminars they would prefer to attend so that there are several seminars taking place simultaneously..
